TOOLS SUGGESTED

Small flat blade screwdriver.

PROCEDURE

STEP 1 Remove the filler/dip stick assembly from the motorcycle. Place a rag over the open oil filler hole to prevent any contamination.

STEP 2 Use a small flat blade screwdriver to pry the stock filler cap cover off the rubber base. See PIC.1. Take care not to damage the rubber base.

STEP 3 Press the zombie cover over the rubber base; be sure the cap seats fully onto the rubber base. If the cover doesn't fit easily over the rubber base, apply a small amount of oil over the sides of the rubber base.

STEP 4 Remove the rag from the oil filler hole and re-install the filler/dip stick assembly on the motorcycle.
