## THANK YOU FOR CHOOSING KÜRYAKYN!

Thank you for purchasing your new FULL DRESSER. The most innovative backrest mounted motorcycle bag on the market. BAGTEC designed and Küryakyn built, we know that you will be very pleased with its high quality and features.

The FULL DRESSER comes with a 30 day money back guarantee, unused of course (less shipping and handling), and a Küryakyn backed one year quality and workmanship warranty. A name we have all come to know, trust and respect.

## BASIC INSTALLATION

**NOTE:** *So as not to tear up your passenger seat or scratch your luggage rack, get a black hand towel and place it on your seat or rack before mounting bag.*

## LUGGAGE RACK MOUNTING

- STEP 1** Set bag on the rack. If you have a wide backrest, then close the 10" wide Velcro strap tightly around the backrest. If you have a narrow backrest, pre-fit the strap size and slide bag over backrest.
- STEP 2** Secure the included straps onto "D" Rings and snug the bottom straps to the saddlebag brackets, backrest bars, or taillights. You may also loop the straps through secure anchor points and back to other "D" rings on the bag.
- STEP 3** Tightening Straps (stowed in the rain cover pouch). These straps tighten the bag to the back of the backrest. Attach one end of a Tightening Strap to the middle D-ring on one edge of the bag. Route the other end down and under the backrest pad and loop it back to the same middle D-ring and pull it tight. Repeat process on the other side.
- STEP 4** Take a moment to ensure all connections are secure and any loose ends are neatly tucked away or tied down.

## SEAT MOUNTING

- STEP 1** Set bag on the rack. If you have a wide backrest, then close the 10" wide Velcro strap tightly around the backrest. If you have a narrow backrest, pre-fit the strap size and slide bag over backrest.
- STEP 2** Secure and snug the bottom straps to the saddlebag brackets, backrest bars, or taillights. These straps are in the rain cover pouch).
- STEP 3** Take a moment to ensure all connections are secure and any loose ends are neatly tucked away.

## TIPS ON USING YOUR NEW FULL DRESSER MOTORCYCLE BAG

### MAIN BAG ZIPPERS

For optimum placement always keep the main bag zipper handles to the left side of the bag in the middle. This will allow top or bottom access when out on the road.

### HIDDEN POCKET ZIPPERS

Always keep the pocket zipper handles on the top of the pocket toward the front of the bike. Rain flaps extend greatly over the zippers for dryness. For easy use of the pocket zippers, fold the rain flaps back before trying to get to something out of the pockets.

### STOP ROLLING THE BAG BEFORE STANDING IT UPRIGHT TO KEEP FROM FRAYING THE BOTTOM OF THE BAG.

**NOTE:** *The FULL DRESSER is not a seat. It has a plastic interior shell that will crack if used as one. The FULL DRESSER is not an airline bag. If you have seen some of your luggage after baggage claim is finished with it, you will not even think of using your FULL DRESSER bag when you fly. However, if you are planning to meet your bike or rent one when you get there and would like to have your bag with you, we suggest you pack it and box it before checking it into baggage claim.*

*Ride On!*
