STRICTLY OBSERVE THE FOLLOWING GUIDELINES IN ORDER TO USE THE PRODUCT PROPERLY AND AVOID POTENTIALLY DANGEROUS ACCIDENTS.

PROCEDURE

STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface; turn off the ignition and allow the engine to cool.

STEP 2 Position one half of the clamp around each side of the desired mounting bar. Loosely secure using the 2 small socket cap screws.

NOTE The main Mount Clamp and Rod/Pole mounts toward the outside of the bike

STEP 3 Fold the flag arm down in each direction and check for clearance around all parts. If contact occurs, reposition the mount and fold the arm down in each direction again.

STEP 4 Tighten the screws securing the mount.

STEP 5 To remove, or replace the flag, unscrew the tip of the flag pole and remove the flag. Install the new flag and tighten the tip.

ATTENTION! It is the installer's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Kuryakyn will not warranty components lost due to improper installation. Periodic maintenance may be required.
