Once the bag has been installed, it may be necessary to adjust the bungee strap tension. Inside the bag, locate and untie the knot under the bottom pad; tighten the straps, then retie the knot.

Refer to **PIC 2**. Use the included 8" Hook & Loop straps and D-Rings to secure the bag directly to the luggage rack.

Without deforming the bag, apply slight downward pressure to the mounting points to "preload" the straps as they are tightened.

Refer to **PIC 3**. Once the bag has been securely installed, tie-off any strap-ends to prevent contact with painted surfaces, moving parts, or heat.

Use the included Rain Cover in inclement weather to assist in providing a weather-resistant storage area.

STOW THE BAG:

Refer to **PIC 4**. Unstick the back-pad from the inside of the bag, lay it flat on the bottom, then fold the sides down flat to store the bag when not in use.

NOTICE

Verify the bag is securely attached BEFORE operating the motorcycle.

Secure all straps away from painted surfaces, moving parts, pinch points or heat.

Check the straps before each ride and at each stop. Bag contents may shift during operation.
