

KAWASAKI PASSENGER FOOTPEG ADAPTER 8831

FITS: KAWASAKI VULCAN 1500 CLASSIC, A/B, DRIFTER, MEAN STREAK, AND 800 CLASSIC AND CUSTOM USING KÜRYAKYN FOOTPEGS

PART#	INCLUDED
408831	2 Footpeg Adapters
208831	2 Detent Spring Washers

TOOLS SUGGESTED

Small pliers, Small flat tip screwdriver, 1/4" Allen wrench

PROCEDURE AVERAGE TIME: 15 MINUTES

STEP 1 REMOVE the stock footpegs by removing the e-clip from the footpeg pivot pin, and sliding the pin out of the mount

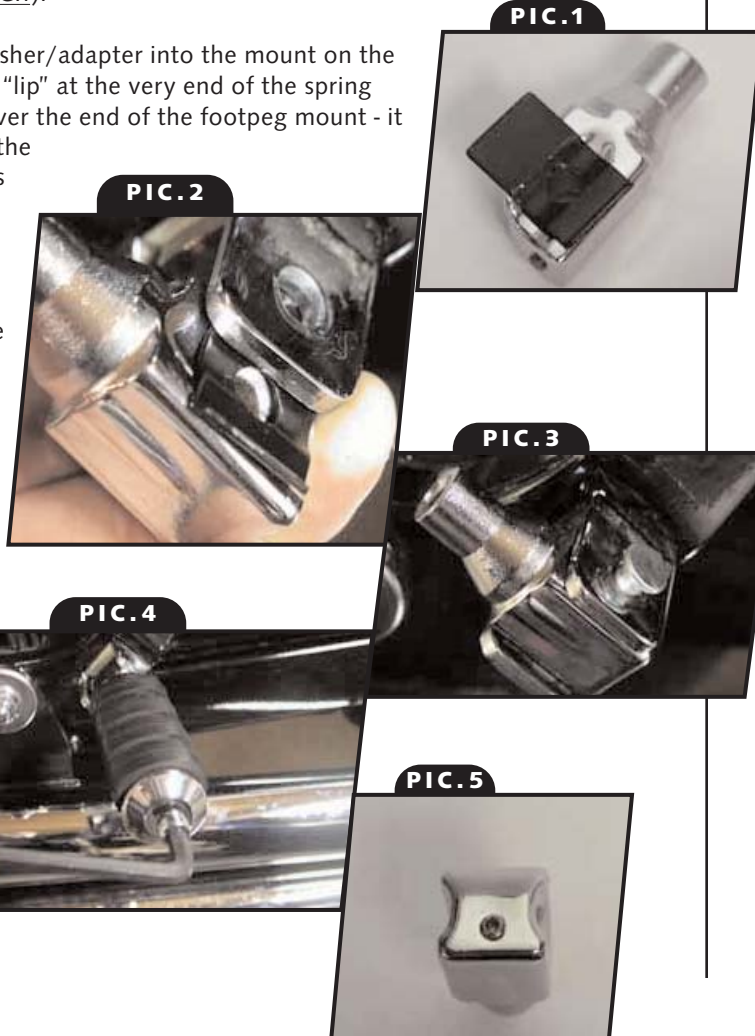

STEP 2 Position the special detent spring washer so the raised ridge engages into the groove in the adapter (see PIC.1).

STEP 3 Slide the spring washer/adapter into the mount on the motorcycle. (See PIC.2.) The "lip" at the very end of the spring washer DOES NOT "hook" over the end of the footpeg mount - it must be slid all the way into the mount - the small lip provides extra spring pressure.

STEP 4 Insert the pivot pin through the mount, adapter and spring washer and secure with the stock e-clip. (PIC.3.)

STEP 5 Install the Kuryakyn peg of your choice on the mount. (PIC.4.)

STEP 6 You may adjust the angle of the peg by turning the small set screw in or out of the end of the mount. (PIC.5.)
